

Software engineer with 5+ years of experience building high-quality digital solutions. Specializing in .NET and modern frontend frameworks, I build scalable web applications and architect robust backend systems. Currently finishing a Master's degree in Computer Engineering while directing Minimalist, a software development studio focused on delivering innovative solutions and technical consulting services.

WORK

Minimalist Zagreb, Croatia

Studio Website & Publishing Platform SEP 2026 — SEP 2026 Minimalist's own site end to end — selected work, services, way of working and a writing section for insights. Static-first on Astro, with a Worker handling the contact form.	minimalist.hr TECH STACK Astro · Cloudflare Workers · Cloudflare Turnstile · Resend
--	--

Factory X Pribislavec, Croatia

Construction Workforce Management Platform OCT 2025 — MAY 2026 Full stack of a platform running day-to-day site operations — crew scheduling, equipment tracking, live field reporting — from the Vue/Quasar client to a .NET API orchestrated with Aspire.	TECH STACK Vue.js · Quasar · .NET Web API · Aspire · MS SQL Server · SignalR · Identity · EF Core · Quartz.NET · Azure Storage
--	--

King ICT Buzin, Croatia

User Management System MAY 2025 — AUG 2025 Identity and access surface of a microservice-based technical protection ecosystem — permissions, account lifecycle and audit-ready history in one place.	TECH STACK .NET Blazor · Syncfusion · Strawberry Shake · bUnit · xUnit · Moq
Visitor Announcement System FEB 2025 — MAY 2025 Visitor pre-announcement module of a technical security platform — web app and REST API against the vendor SDK that issues credentials at the gate.	TECH STACK .NET Blazor · MudBlazor · .NET Web API · MS SQL Server · Dapper

Infinum Zagreb, Croatia

Creator–Fan Social Platform FEB 2024 — FEB 2025 Subscription social platform — paid feeds, SendBird messaging, media on Azure Storage — plus the back-office dashboards for onboarding, moderation and support.	TECH STACK .NET MVC · .NET Web API · PostgreSQL · EF Core · jQuery · Bootstrap · Azure AD B2C · SendBird · Firebase · Azure Storage · xUnit · NSubstitute
Sport Events Management System OCT 2023 — FEB 2024 Sole backend engineer on the REST API behind a mobile sports app: event hosting, capacity rules, participant history and performance tracking.	TECH STACK .NET Web API · PostgreSQL · EF Core · Azure AD B2C · xUnit · Moq
Blood Donation Coordination Hub APR 2023 — OCT 2023 API and admin dashboard for a donation platform: centre directory, appointment scheduling, donor history and eligibility-aware notifications.	TECH STACK .NET Blazor · .NET Web API · PostgreSQL · EF Core · Identity · Bootstrap · Firebase · SendGrid · xUnit · Moq
Installation Management Network MAY 2022 — APR 2023 Network connecting manufacturers, retailers and installers: work-order tracking, installer matching, document handling and the admin dashboard.	TECH STACK .NET MVC · .NET Web API · PostgreSQL · EF Core · Identity · jQuery · Bootstrap · Firebase · SendGrid · Azure Storage · xUnit · Moq
