SUMMARY

Software engineer with **more than 5 years of experience** and a passion for crafting high quality digital solutions. Skilled at **writing clean, maintainable and well-tested code** with focus on web applications and backend systems using modern **.NET technologies**. Experienced in working with both **small and large teams** across multiple **projects and companies**. Able to work effectively in **both remote and in-office environments**, with a preference for remote work. For more information, please visit **my portfolio at mucnjakf.github.io/Portfolio**.

PROFESSIONAL EXPERIENCE

Full Stack Developer

Factory X
Pribislavec, Croatia

Construction workforce management platform
OCTOBER 2025. - MAY 2026.

- Engineered a custom workforce management platform for the construction sector, delivering features for on-site coordination, resource tracking, and field operation digitization to optimize core business processes.

Tech-stack .NET 8 · Web API · Identity · EF Core · Quartz.NET · Azure AI · Azure ServiceBus · Aspire · Azure Storage · TypeScript · Vue · Quasar · MS SQL Server

Full Stack Developer

King ICT
Buzin, Croatia

User management system
MAY 2025. - AUGUST 2025.

- Developed a comprehensive user management web application featuring role-based access control and lifecycle management to support a large-scale, microservice-based technical protection ecosystem.

Tech-stack .NET 8 · Blazor · Syncfusion · Fluxor · GraphQL · bUnit · xUnit · Moq

Visitor announcement system
FEBRUARY 2025. - MAY 2025.

- Designed and implemented a web application and REST API integrated with a third-party SDK to manage visitor announcements within a comprehensive technical security platform.

Tech-stack .NET Framework 4.8 · .NET 9 · Web API · Dapper · Device SDK · Blazor · MudBlazor · MS SQL Server

DevOps

- Git
- GitHub
- GitLab
- Docker
- Azure

Craftsmanship

- Clean architecture
- Layered architecture
- Domain driven design
- SOLID
- DRY
- Dependency injection
- Mediator
- CQRS
- Unit of work
- Singleton

Tools

- Rider
- Visual Studio
- VS Code
- Azure DevOps
- Jira
- MS Office
- Claude Code
- Postman

Soft skills

- Communication
- Organization
- Teamwork
- Accountability
- Analysis
- Learning
- Awareness
- Patience
- Openness
- Versatility

Full Stack Developer	Infinum Zagreb, Croatia
Creator-fan social media platform FEBRUARY 2024. - FEBRUARY 2025.	- Co-developed a creator-fan social media platform featuring exclusive content feeds and direct messaging, while implementing comprehensive admin and agent dashboards for seamless system and creator management. Tech-stack .NET 8 · MVC · Bootstrap · jQuery · Web API · Azure AD B2C · EF Core · Firebase · SendBird · Azure Storage · xUnit · NSubstitute · Azure · PostgreSQL
Sport events management system OCTOBER 2023. - FEBRUARY 2024.	- Built a robust REST API providing backend support for a mobile sports event management platform that allows users to seamlessly host events, join activities, and track performance. Tech-stack .NET 8 · Web API · Azure AD B2C · EF Core · xUnit · Moq · Azure · PostgreSQL
Blood donation coordination hub APRIL 2023. - OCTOBER 2023.	- Developed an admin dashboard and supporting REST API for a blood donation platform that streamlines user scheduling, history tracking, and donation center discovery. Tech-stack .NET 7 · Blazor WASM · Bootstrap · Web API · Identity · EF Core · Firebase · SendGrid · xUnit · Moq · Azure · PostgreSQL
Installation management network MAY 2022. - APRIL 2023.	- Engineered an admin dashboard and REST API to manage projects, track work orders, and facilitate connections between manufacturers and retailers for retail installation resources. Tech-stack .NET 7 · MVC · Bootstrap · jQuery · Web API · Identity · EF Core · Firebase · SendGrid · Azure Storage · xUnit · Moq · Azure · PostgreSQL

Language skills

- Croatian (native)
- English (proficient)

Certifications

- MTA: [Software Development Fundamentals 2019.](#)
- MTA: [Database Administration Fundamentals 2019.](#)
- MTA: [Introduction to Programming Using HTML and CSS 2019.](#)

Full Stack Developer

Enterwell
Zagreb, Croatia

Conference device management tool
MARCH 2022. - MAY 2022.

- Developed a desktop application connected to a central web dashboard to ensure streamlined monitoring and coordination of conference equipment during events.

Tech-stack .NET 5 · WPF · SignalR · MS SQL Server · Device SDK

Technical security solution

FEBRUARY 2021. - MARCH 2022.

- Implemented integrated web and desktop dashboards to efficiently manage and monitor a comprehensive security platform featuring IoT devices, real-time video streaming, and access control units.

Tech-stack .NET Framework 4.8 · MVC · React.js · Bootstrap · jQuery · WPF · Web API · Identity · EF · SignalR · xUnit · Moq · MS SQL Server · Device SDK

QA Associate

Nanobit
Zagreb, Croatia

FEBRUARY 2020. - DECEMBER 2020.

- Conducted rigorous feature testing, accurately reproduced reported issues, and provided actionable feedback via detailed bug reports to improve overall software quality.

QA Associate

UniqCast
Zagreb, Croatia

MAY 2019. - SEPTEMBER 2019.

- Ensured software quality through manual and automated black box testing while directly contributing to development via QML programming, technical documentation, and customer support.

EDUCATION

Professional Master in Computer Engineering
SEPTEMBER 2022. - PRESENT

Algebra Bernays University
Zagreb, Croatia

Bachelor in Software Engineering
OCTOBER 2017. - MARCH 2022.

Algebra Bernays University
Zagreb, Croatia

Technician for mechatronics
SEPTEMBER 2012. - MAY 2016.

**Fran Bošnjaković
Mechanical Engineering
School**
Zagreb, Croatia
